

## Year 2 Term 5

### Where in the World?

Due to the results of the parent questionnaire about our planned trip to London we have organised to go to the Sevenoaks Kent Wild Life Trust Centre as part of our unit of work on habitats in science. Our intended unit of work focusing on our capital city, as displayed on the website, has changed and will now focus on Our Country.

This term we will be reading the Katie Morag stories. We will be writing stories and character profiles based on these texts. We will continue to apply our knowledge of noun phrases and verbs to our writing. We will apply our knowledge of coordinating (and or but) and subordinating (when if because) conjunctions. We will also learn how to write statement sentences and apply this to report writing about the Isle of Struay and command sentences and apply this to instructional writing.

In geography we will be finding out about Our Country. We will learn to name countries, capital cities and key landmarks.

In art we will be looking at Monet's Garden and Van Gogh landscapes.

In computing we will be using Purple Mash to look at data handling using 2graph, 2count and 2question.

Outdoor Games will be on Monday, we will be preparing for Sports Day. Indoor Gym will be on Friday. We will be continuing our work from this term.

Thank you for your continued support
